

ART CLASSES

individually tailored lessons

drawing, painting and mixed media
colour theory and practise
specialist paint effects & faux painting

DRAWING explore the the basic strategies of drawing and observation. Expand your skills and dip into various drawing techniques. Improve your sketching. Look at 'light and shade', perspective, composition, and the 'tricks of the trade'. Find out what your pencils, pens and charcoal can do!

COLOUR THEORY enrich your artwork and skills by studying how we perceive colour and how colours 'work'. Develop your colour mixing skills and learn about the mixing methods in order to use colours effectively and achieve the results you desire.

PAINING AND MIXED MEDIA develop your painting skills with gouache, acrylics and oils or other paints. Look into the different painting methods and how to combine different media. Learn about pigments, paint mediums, making paint, faux & decorative painting.

KNOW YOUR MATERIALS wander through the possibilities of artists materials and learn how to manipulate them for the benefit of your art.
